DIFFERENTIATORS

- SBA VetCert Certified SDVOSB
- Public-sector and transportation technology expertise
- Agile and scalable project delivery approach
- Execution-focused approach with hands-on delivery leadership
- Ability to rapidly assess and stabilize struggling projects
- Commitment to quality, schedule adherence, and client satisfaction
- Responsive small-business partner with rapid mobilization capability
- Veteran-led leadership with mission-focused execution
- Proven experience coordinating complex multi-stakeholder initiatives
- Strong Agile and DevOps workflow experience
- Experienced in cross-functional coordination and stakeholder management
- Experienced in regulated and high-visibility environments
- Ability to support both prime and subcontract engagements
- Strong focus on accountability, communication, and operational excellence

RELEVANT EXPERIENCE

Transportation Modernization

Supported enterprise transportation technology initiatives involving implementation oversight, Agile coordination, stakeholder engagement, and operational planning.

Project Recovery & PMO Support

Led governance restructuring, backlog prioritization, executive reporting, sprint management, and delivery oversight for high-risk initiatives.

Project Management Support Services

Provided project coordination, operational oversight, stakeholder communication, scheduling support, and reporting services supporting organizational initiatives and operational execution.

Program Operations & Administrative Support

Delivered management support services including documentation management, workflow coordination, process improvement, and operational administration.

Construction / Facilities Oversight Support

Supported project tracking, vendor coordination, schedule management, and reporting activities for facilities and infrastructure-related initiatives.
